WILLIAMS SHIPPING

ABOUT US

We are a marine logistics company offering a broad range of support services including vessel charter, cargo handling, transport and haulage, marine lubricants distribution, port services and shipping container hire and sales.

From three strategically located bases in Southampton and Milford Haven, we offer a wealth of marine and logistics expertise across the UK and Western Europe.

Ongoing daily support for shipping lines, freight forwarders, ships agents and civil engineers underpins the quality and reliability of our team.

Our staff are trained to the highest levels within our industry and all our vehicles, vessels and equipment are constantly monitored to ensure safety and quality.

**Providing marine
& logistics services
for over 120 years**

CARGO HANDLING

From two strategically located bases in Southampton, we operate a fleet of specialist vehicles & equipment to support our growing cargo handling service.

Our logistics HQ is located adjacent to Southampton Western Docks, with easy motorway access for third party hauliers.

200m of quayside storage is available from our marine base at Southampton's Eastern Docks, providing direct access to ships, barges and other marine vessels.

Our capabilities include:

- Container collection from quayside
- Cargo transport to & from customers
- Container devanning
- Consolidation hub services
- Warehouse storage
- Bonded & open storage
- Abnormal & heavy haulage

Daily support for shipping lines and freight forwarders underpins the quality & reliability of our service

TRANSPORT & HAULAGE

We operate a traditional road haulage service providing specialist and abnormal load transport across Europe.

As well as holding the statutory CPC qualifications for driving, we go further and train our drivers to the highest standards including:

ADR – the licence to carry dangerous goods

Aviation Secure – ability to deliver within airport secure bases

Slinger Signaller – ability to work with cranes on site loading/offloading

SAFED – a complimentary driving development course

All our drivers are highly knowledgeable and are highly experienced in roping, sheeting and securing loads of all shapes and sizes, catering for all our customer's haulage requirements.

As an operator of marine vessels, we understand the importance of meeting ships on time, every time

STORAGE & WAREHOUSING

With over 3000m² of enclosed warehouse facilities, we provide a diverse range of storage solutions for the marine and shipping markets.

Stock is managed via an electronic inventory system enabling fast and effective dispatch. All tracking and inventory solutions can be universally adapted to the needs of each client, including first in first out procedures.

We provide open storage facilities at our bases in Southampton, ideally located for project moves and cargo shipping.

For import / export trade, we operate HMRC compliant customs warehouse units.

All storage sites are fitted with modern CCTV and alarm systems to ensure the highest level of security.
