HIGH TEMPERATURE GREASE

MULTIPURPOSE HIGH TEMPERATURE GREASE

HIGH PERFORMANCE

Intended for use in a wide range of plain and rolling element bearings, especially targeting those applications where upper operating temperatures are likely to exceed the limits of conventional, lithium-thickened greases.

FEATURES	BENEFITS
Excellent thermal and mechanical stability.	Helps to ensure prolonged product integrity across a wider operating temperature range.
Good extreme pressure and anti-wear properties.	Helps to promote long component life.

BIOTAC EP2

ENVIRONMENTALLY RESPONSIBLE EP GREASE

HIGH PERFORMANCE

ENVIRONMENTALLY RESPONSIBLE

Environmentally responsible wire rope grease providing excellent protection even when equipment is exposed to water wash.

FEATURES	BENEFITS
Enhanced renewability. Superior biodegradation. Significantly reduced bioaccumulation and toxicity.	Reduced environmental impact when compared to conventional mineral oils. Support your company's environmental agenda. Enhance your reputation among customers and stakeholders. Comply with current and future legislation.
Good pumpability at low temperatures.	Facilitates the use of pressurised lubrication equipment.
High resistance to water spray-off.	Helps reduce frequency of application.
Good load-carrying and anti-corrosion properties.	Contributes to extended component life and reduced maintenance for wire ropes.
