SPILL EQUIPMENT CATALOGUE

OIL SPILL KITS

Oil Selective absorbents naturally absorb hydrocarbons and repel water, making them the ideal solution for dealing with oil spills that occur in a marine or outdoor environment.

Oil Selective spill kits are designed for use on spills of hydrocarbons (oil, fuel oil, petrol, diesel, vegetable oil etc.) both indoors and outside.

Maintenance Spill Kit Vinyl Holdall
50ltr - 50MHK

CHEMICAL SPILL KITS

Chemical absorbents and **spill kits** will absorb almost any liquid making them ideal for situations where you are dealing with aggressive chemicals or when you are unsure what the spilled liquid is.

Colour coded yellow as a visual indicator of a potential hazard, chemical absorbents stand out when in use.

Chemical Absorbent Pads
pack of 100 - ESCP1

40x50cm - 0.8ltr per pad - 80ltr per pack

DRUM SPILL PALLETS

Drum spill pallets are rotationally moulded in the UK using polyethylene to be compatible with most liquids. They are extremely robust and fully compliant with UK regulations.

Please call for further details on our full range of spill pallets

GRANULES

Convenient bags of absorbent granules for use on all types of spills. Simply pour the required amount of granules onto the spillage and wait for the granules to work before sweeping away.

ABSO'NET Multi Zorb Granules
