WHAT WE DO

Founded in 1894, *Williams Shipping* is a fifth generation family-owned business offering a broad range of marine and logistics services to a diverse range of industries including construction, civil engineering, shipping, defence, renewable energy, oil and gas, marine and inland waterways, across the UK and Europe.

Our sister company, *Willbox*, is one of the UK's leading providers of shipping containers and portable storage solutions, supporting customers nationwide with flexible and secure storage options.

Meet some of our apprentices....

“

Working at sea is amazing — no two days are ever the same! I'm learning lots of new skills from an experienced crew, and I get to work on all kinds of vessels. It's a great feeling being part of the team and learning a trade that will set me up for the future. It's hands-on, exciting, rewarding, and giving me experience I'll use for years to come.

”

Josh

Deckhand Apprentice

“

I've learned so much since joining Willbox, as the Apprenticeship has given me real life experience in sales and customer service. One day I might be helping a customer buy a single container, and the next I'm working on a big order for a large national business! It's great knowing that I'm building a career whilst learning each day.

”

Thomas

Business Admin & Sales Support Apprentice

“

Starting as an Apprentice was the best move as it gave me the confidence and experience to build my career here. I'm now part of the Lubricants team, managing customer calls, distribution and stock. It's great being trusted with real responsibility, and every day I'm learning something new and making a difference.

”

EmmaDistribution and Sales Support
(former apprentice)

“

When I left school, I didn't know exactly what I wanted to do. Starting as an Apprentice at Williams Shipping gave me my first real step on the career ladder. Now, I am a full-time Assistant Transport Planner as Williams Shipping gave me the opportunity to learn, grow and build a career - it's great to see how far I've come.

”

CallumAssistant Transport Planner
(former apprentice)

“

Joining Williams Shipping as a Marketing Apprentice has been one of the best decisions I've made as it allows me to put what I learnt at college into practice. I get to be creative every day - designing, managing social media, creating videos, and learning new digital marketing skills. I see this as my first step in a long career in marketing.
